

**Assistant, Associate or Full Professor  
MCL or Clinician/Educator Line  
Division of Blood & Marrow Transplantation  
Department of Medicine, Stanford University**

Hoover Tower – Stanford University

*Stanford University is an equal opportunity employer and is committed to increasing the diversity of its faculty. It welcomes nominations of and applications from women and members of minority groups, protected veterans and individuals with disabilities, as well as others who would bring additional dimensions to the university's research, teaching and clinical missions.*

Stanford University is recruiting for a position at the rank of Assistant Professor, Associate Professor or Professor in the Medical Center Line or in the Clinician Educator Line in the Department of Medicine, Division of Blood and Marrow Transplantation.

Applicants should have an MD or MD/PhD and be board certified or eligible in Internal Medicine and Hematology or Oncology. The candidates should have an outstanding record of accomplishment in clinical care, teaching, and a focused area of expertise in allogeneic and autologous marrow and blood stem cell transplantation. The successful Medical Center Line candidate will have an outstanding record of research in the broad area relevant to blood and marrow transplantation – collaborations with colleagues in related disciplines, including research activity, translational science and participation in clinical trials are important aspects of this position. The major criteria for appointment for faculty in the Medical Center Line shall be excellence in the overall mix of clinical care, teaching and scholarly activity that advances clinical medicine. The major criteria for appointment for Clinician Educators are excellence in the overall mix of clinical care and clinical teaching appropriate to the programmatic need the individual is expected to fulfill.

We expect the successful candidate to attend in our outpatient Infusion Treatment Area (ITA) in the Cancer Center, and the BMT inpatient service in Stanford Hospital. They will conduct weekly outpatient clinic sessions. Teaching responsibilities for the candidate will include the teaching of residents and fellows, as well as Divisional teaching responsibilities within the Department of Medicine. Research on basic laboratory, translational or clinical aspects of autologous or allogeneic bone marrow transplantation is an important aspect of the position.

Rank and salary will be determined by the qualifications and experience of the successful candidate.

Please submit a CV, letter of interest and the names and contact information for three potential references to:

Judith Shizuru, PhD, MD  
Professor of Medicine  
Division of Blood and Marrow Transplantation  
Stanford Medicine
