

**Cardiologist – with expertise in advanced Heart Failure, Pulmonary Hypertension,
Cardiovascular Imaging and Applied Biomarker Research
Division of Cardiovascular Medicine
Department of Medicine**

Stanford University is an equal opportunity employer and is committed to increasing the diversity of its faculty. It welcomes nominations of and applications from women and members of minority groups, as well as others who would bring additional dimensions to the university's research, teaching and clinical missions.

Stanford University's School of Medicine, Department of Medicine, Division of Cardiovascular Medicine and Stanford Cardiovascular Institute are seeking a board certified cardiologist with expertise in advanced heart failure, pulmonary hypertension, transplantation, and cardiovascular imaging. The candidate will hold the rank of Clinical Assistant or Clinical Associate Professor.

From a clinical perspective, the candidate will attend on the advanced heart failure, heart transplantation and cardiovascular imaging service and will lead the heart failure imaging program. The candidate will co-lead the cardio-pulmonary exercise testing in patients with heart failure.

From an educational perspective, we expect the candidate to develop a new curriculum for heart failure imaging and exercise testing, as part of a larger Precision Medicine initiative at the University.

From a research perspective, the candidate will lead the Stanford Cardiovascular Institute Biomarker and Phenotypic Core Laboratory. The mission of the Core Laboratory will be to facilitate translational cardiovascular discoveries with a focus on early detection of disease, mechanisms of heart failure and development of novel diagnostic panels. Experience in cardio-immunology and a strong record of accomplishment in clinical research is desired.

From an administrative perspective, the candidate will co-lead the quality improvement initiatives at a program level.

Finally, being a member of International Guideline committees on heart failure or pulmonary hypertension will be considered when evaluating candidates.

The major criterion for appointment, reappointment and promotion for Clinician Educators is excellence in the overall mix of clinical care and clinical teaching appropriate to the programmatic need the individual is expected to fulfill. *Rank will be determined by the qualifications and experience of the successful candidates.*

Submit CV and a brief letter of interest to Dr. Alan Yeung: Chief of the Cardiovascular Medicine Division at Stanford University <http://facultyapplication.stanford.edu>

Salary range: \$227,000-\$274,000
