

Assistant, Associate, or Professor
Division of General Medical Disciplines
Department of Medicine/Cardiovascular Institute

Stanford University is an equal opportunity employer and is committed to increasing the diversity of its faculty. It welcomes nominations of and applications from women, members of minority groups, protected veterans and individuals with disabilities, as well as from others who would bring additional dimensions to the university's research, teaching and clinical missions.

The Department of Medicine and the Cardiovascular Institute at the Stanford University School of Medicine seek a clinical investigator to join the Department as Assistant Professor or Associate Professor or Professor in the University Tenure Line (UTL) or the Medical Center line (MCL). We are seeking dynamic individuals to bring intellectual leadership and rigorous scholarship to our exciting program.

The successful applicant should have a medical degree with board certification in internal medicine with a combination of training and experience in clinical research related to cardiovascular disease and its risks. He or she should also have substantive experience in internal medicine practice and clinical teaching, and either an established track record of funded research or an established record of scholarly achievement.

The predominant criterion for appointment in the University Tenure Line is a major commitment to research and teaching. The major criteria for appointment for faculty in the Medical Center Line shall be excellence in the overall mix of clinical care, clinical teaching, scholarly activity that advances clinical medicine, and institutional service appropriate to the programmatic need the individual is expected to fulfill. Faculty rank will be determined by the qualifications and experience of the successful candidate.
