Assistant, Associate or full Professor in Medical Center Line  
Gastrointestinal (GI) Oncology  
Division of Oncology, Department of Medicine

The Division of Oncology in the Department of Medicine at Stanford University is recruiting a gastrointestinal (GI) medical oncologist. The faculty position is at the Assistant, Associate, or full Professor level in the Medical Center Line (MCL). The successful candidate should be an accomplished clinical investigator with a demonstrated record of research funding and publication in leading cancer journals. Faculty rank will be determined by the qualifications and experience of the successful candidate.

The major criteria for appointment for faculty in the Medical Center Line shall be excellence in the overall mix of clinical care, clinical teaching, scholarly activity that advances clinical medicine, and institutional service appropriate to the programmatic need the individual is expected to fulfill.

The successful candidate will be expected to build an academic GI Oncology research program with a clinical/translational research focus, teach fellows, and participate in the GI oncology clinics. Candidates must have an MD and be board certified or eligible in Medical Oncology and/or Hematology. The Division of Oncology benefits from an outstanding scientific and clinical environment at Stanford, including active collaborations with the basic science departments and the Stanford Institutes, including the Stem Cell and the Cancer Institutes.

Candidates should submit a detailed letter of interest and curriculum vitae to:
