The Division of Cardiovascular Medicine at Stanford University is recruiting one full-time academic advanced heart failure and transplant cardiologist at the rank of Clinical Assistant or Clinical Associate Professor to join the growing Advanced Heart Failure program. The major criterion for appointment, reappointment and promotion for Clinician Educators is excellence in the overall mix of clinical care and clinical teaching appropriate to the programmatic need the individual is expected to fulfill.

The candidates should have an MD degree and be board certified in cardiovascular disease and board certified or eligible for advanced heart failure and transplant cardiology. Clinical responsibilities would include participation in the care of patients with heart failure as well as those who have had mechanical support and cardiac transplantation. Faculty rank and leadership role will be determined by the qualifications and experience of the successful candidates.

Prior training in and involvement with clinical trial design and conduct or experience in clinical research is highly desirable. These individuals will be part of the high-volume Section of Heart Failure, Cardiac Transplantation and Mechanical Circulatory Support at Stanford University.

Submit CV, a brief letter of interest, and the names of three references to Jeffrey Teuteberg, MD at: http://facultyapplication.stanford.edu/

Stanford is an equal employment opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, protected veteran status, or any other characteristic protected by law. Stanford also welcomes applications from others who would bring additional dimensions to the University’s research, teaching and clinical missions.
