Clinical Educator
Clinical Assistant/Associate/Full Professor

The Division of Pulmonary and Critical Care Medicine in the Department of Medicine at Stanford University seeks a physician clinician position for our Center for Advanced Lung Disease (CALD) program. The job focus of this position will primarily concern interstitial lung diseases (ILD) patient care and research but will also potentially include working with cystic fibrosis (CF) and lung transplant patients. The ILD program is a vital aspect of Stanford’s Center for Advanced Lung Disease and has a strong multidisciplinary integration with our lung transplant program. The adult CF Program is one of the largest and most successful in the country.

The predominant criterion for this appointment is a major commitment to ILD and related research and teaching.

Faculty rank will be determined by the qualifications and experience of the successful candidate.

Interested candidates should submit their curriculum vitae and a brief letter outlining their interests at the following link:
