

Cardiologist – Stanford Center for Inherited Cardiovascular Disease
Division of Cardiovascular Medicine
Department of Medicine

Stanford University is an equal opportunity employer and is committed to increasing the diversity of its faculty. It welcomes nominations of and applications from women and members of minority groups, as well as others who would bring additional dimensions to the university's research, teaching and clinical missions.

The Department of Medicine, Division of Cardiovascular Medicine, at Stanford is seeking a board certified or board eligible cardiologist to join the Stanford Center for Inherited Cardiovascular Disease (<http://familyheart.stanford.edu>). Prior specialist training or practice in Inherited Cardiovascular Disease is preferred, but not required. Creativity as well as strong communication, team working, and general cardiology clinical skills are essential. A love of complex cases and family-based care is essential. Successful candidates will be expected to teach medical students, residents and fellows in the clinical setting. Candidates with experience and interest in clinical research are preferred. The ranks of Clinical Professor, Clinical Associate Professor, or Clinical Assistant Professor, will be based on training and experience.

The major criterion for appointment, reappointment and promotion for Clinician Educators is excellence in the overall mix of clinical care and clinical teaching appropriate to the programmatic need the individual is expected to fulfill.

Submit CV and a brief letter of interest to Dr. Euan Ashley, Director, Center for Inherited Cardiovascular Disease: <http://facultyapplication.stanford.edu>
