Co-Director Hospital Epidemiologist  
Department of Medicine Division of Infectious Diseases  
Stanford University

The Department of Medicine, Division of Infectious Diseases and Geographic Medicine at Stanford University is recruiting a Co-Director of Hospital Epidemiology appointed in either the Medical Center Line or the Clinician Educator Line to serve at Stanford Hospitals and Clinics. The ideal candidate should be board certified in Infectious Diseases and have training and certification in Infection Control and Hospital Epidemiology. In this role the candidate will work in partnership with the current Hospital Epidemiologist and oversee staff of the infection control and hospital epidemiology department of Stanford Hospitals and Clinics. He/she will manage all infection control protocols, policies, and procedures used in the Infection Prevention and Control department. In partnership with the Hospital Epidemiologist, the Co-Director of Hospital Epidemiology will also be responsible for assuring the Infection Prevention and Control Program meets The Joint Commission, State and Federal regulatory compliance that is applicable to this area.

The major criteria for appointment for faculty in the Medical Center Line shall be excellence in the overall mix of clinical care, clinical teaching, scholarly activity that advances clinical medicine, and institutional service appropriate to the programmatic need the individual is expected to fulfill. The major criterion for appointment as Clinician Educators, including Clinician Educators (Affiliated), is excellence in the overall mix of clinical care, teaching, administrative and/or scholarship appropriate to the programmatic need the individual is expected to fulfill.

Academic line and rank will be determined by the qualification and experience of the successful candidate. Candidates with expertise and scholarship and research programs in all areas of Hospital Epidemiology will be considered.

Interested candidates should submit a curriculum vitae and letter of interest to the attention of Dr. Mark Holodniy, Professor, Infectious Diseases and Search Committee Chair at:
