

**Stanford | MEDICINE**

**Allergy, Asthma and Immunodeficiency Clinician Educator Position  
Division of Pulmonary, Allergy, and Critical Care Medicine  
Department of Medicine  
Stanford University  
Stanford, CA**

Stanford University Department of Medicine is seeking an outstanding individual to join Allergy, Asthma and Immunology in the Division of Pulmonary, Allergy, and Critical Care Medicine as a Clinical Assistant or Clinical Associate Professor in the Clinician Educator line. This position focuses on the expansion of clinical, research and educational programs in adult Allergy, Asthma and Immunodeficiency. The successful applicant's responsibilities will include primarily outpatient care (80%), with some participation in the inpatient consult service. Responsibilities will also include teaching fellows, residents and medical students. Pursuit of individual scholarly interests is encouraged and supported.

The Division has an outstanding career development program for its dedicated Clinician Educators. Academic rank and salary will be commensurate with experience. Candidates must be eligible for medical licensure in the state of California and be board certified in Internal Medicine/Pediatrics and board eligible or certified in Allergy/Immunology. A/I trainees in their final year of fellowship as well as those with experience in community or academic clinical care are encouraged to apply.

*Stanford is an equal employment opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, protected veteran status, or any other characteristic protected by law. Stanford also welcomes applications from others who would bring additional dimensions to the University's research, teaching and clinical missions.*

Interested candidates should submit a CV and letter of interest to the attention of:

Anna Arroyo, MD, Clinical Chief, Allergy, Asthma & Immunodeficiency ([annaarroyo@stanford.edu](mailto:annaarroyo@stanford.edu)) and Mark Nicolls, MD, Chief, Division of Pulmonary, Allergy and Critical Care Medicine ([mnicolls@stanford.edu](mailto:mnicolls@stanford.edu)).
