

Liver Transplant – Valley Care
Division of Gastroenterology and Hepatology
Department of Medicine

The Division of Gastroenterology and Hepatology at Stanford University is actively recruiting a board-eligible Liver Transplant Faculty member to staff its growing inpatient service at Stanford Healthcare’s ValleyCare hospital in Pleasanton, California to complement Stanford Healthcare expansion efforts into the East Bay. This unique opportunity provides the hepatologist an opportunity to work closely with national leaders in academic gastroenterology and hepatology at Stanford and provide state-of-the-art care at a world renowned tertiary academic center.

The Division has been rapidly expanding in its clinical operations in the past few years. This role is created to ensure high quality care of patients admitted to the liver service at ValleyCare. This Hepatologist will work with the existing Liver/Liver Transplant team of Faculty and Advanced Practice Providers currently on the service to expand the team’s ability to care for patients on the liver service and to enhance the overall functional capacity of the team.

This Hepatologist will be joining the current Faculty covering this service, to allow for growth of the program and to provide time for both engagement in scholarly activities with members of the Division for current and future academic pursuit as well as educational activities that further the mission of the Division. The position will be approximately 6 months of consultative inpatient service a year including opportunities to round on the primary inpatient service in Palo Alto with outpatient clinics and endoscopy sessions to round out the clinical schedule.

We are particularly interested in individuals of under-represented minority status who are interested in pursuing a career in clinical gastroenterology and hepatology. As a member of the GI Division, you will be provided ample opportunities to focus on teaching, research, and other academic pursuits.

Qualifications

- Board-certified in Gastroenterology (or ability to be board certified)
- Advanced training in Liver transplant
- Actively practicing
- California medical license

Stanford University School of Medicine is ranked among the top in the nation by US News and World Report and attracts many talented and ambitious individuals around the world. Come be a part of a world-class institution and enjoy all that the San Francisco Bay Area has to offer!

Applicants should send their curriculum vitae, a brief letter outlining their interests, and the names and addresses of at least three potential referees to W. Ray Kim, MD, Chief Division of Gastroenterology & Hepatology, via email to travenav@stanford.edu. Any referrals would also be appreciated.

The expected base pay range for this position is:

Gastroenterology

Assistant Professor - \$285,000 - \$321,000

Associate Professor - \$336,000 - \$357,000

Professor - \$376,000 - \$443,000

This pay range reflects base pay, which is based on faculty rank and years in rank. It may not include all components of faculty compensation or pay from participation in departmental incentive compensation programs. For more information about compensation and our [wide-range of benefits](#) including [housing assistance](#), please contact the hiring department.

Stanford University has provided a pay range representing its good faith estimate of what the university reasonably expects to pay for the position. The pay offered to the selected candidate will be determined based on factors including (but not limited to) the experience and qualifications of the selected candidate including equivalent years in rank, training, and field or discipline; internal equity; and external market pay for comparable jobs.

Stanford is an equal employment opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, protected veteran status, or any other characteristic protected by law. Stanford also welcomes applications from others who would bring additional dimensions to the University's research, teaching and clinical missions.
