The Division of Immunology and Rheumatology at Stanford University School of Medicine is seeking board-eligible or board-certified Rheumatologists to join the Department as Clinical Assistant Professor, Clinical Associate Professor, or Clinical Professor in the Clinician Educator line at Stanford Health Care Tri-Valley in Pleasanton, California to complement Stanford Health Care expansion into the East Bay. This unique opportunity provides the Rheumatologist an opportunity to work closely with national leaders in academic rheumatology and other subspecialties at Stanford and provide state-of-the-art care at a world-renowned academic center.

The Division has been rapidly expanding in its clinical operations in the past few years. This role is created to ensure high quality care of patients in Tri-Valley clinics and hospital. This Rheumatologist will be joining the current Stanford Faculty based at Stanford Health Care Tri-Valley, and the position will provide opportunities for both engagement in scholarly activities with members of the Division as well as in educational activities that further the mission of the Division. The successful applicant’s responsibilities will include primarily outpatient care (80%), as well as participation in the inpatient consult service.

**Qualifications**

- Board-certified in Rheumatology
- Actively practicing
- California medical license

Stanford, the “University of Pioneers,” is known for its excellence and accomplishments across a spectrum of disciplines. Stanford University School of Medicine is ranked among the top in the nation by US News and World Report and attracts many talented and ambitious individuals around the world. Come be a part of a world-class institution and enjoy all that the San Francisco Bay Area has to offer!

Interested candidates should submit a CV, letter of interest, and the names and addresses of 3 potential references to the attention of: Matthew Baker, MD, MS, Clinical Chief, Division of Immunology and Rheumatology (mbake13@stanford.edu) and William Robinson, MD, PhD, Chief, Division of Immunology and Rheumatology (wrobins@stanford.edu). Rheumatology trainees in their final year of fellowship as well as those with experience in community or academic clinical care are encouraged to apply. Any referrals would also be appreciated.

The expected base pay range for this position is:

**Rheumatology**

Assistant Professor - $254,000 - $265,000  
Associate Professor - $273,000 - $285,000  
Professor - $290,000 - $334,000

This pay range reflects base pay, which is based on faculty rank and years in rank. It may not include all components of faculty compensation or pay from participation in departmental incentive compensation programs. For more information about compensation and our wide-range of benefits including housing assistance, please contact the hiring department.

Stanford University has provided a pay range representing its good faith estimate of what the university reasonably expects to pay for the position. The pay offered to the selected candidate will be determined based on factors including (but not limited to) the experience and qualifications of the selected candidate including equivalent years in rank, training, and field or discipline; internal equity; and external market pay for comparable jobs.
Stanford is an equal employment opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, protected veteran status, or any other characteristic protected by law. Stanford also welcomes applications from others who would bring additional dimensions to the University’s research, teaching and clinical missions.
