

Lambda COVID-19

HAVE YOU TESTED POSITIVE FOR CORONAVIRUS (COVID-19) IN THE LAST TWO DAYS?

Are you interested in being in a Stanford study of a new treatment? Please contact us as soon as possible after getting a positive Covid-19 test result as the study must start within 72 hours of the test being performed.

Criteria:

- Age 18-64; generally good health
- Ability to return to Stanford campus for follow-up visits

Participation Involves:

- Half of the participants will be randomly chosen to receive the study drug and the other half will receive the placebo.
- Regular check for virus to tell you when it is gone
- Pulse oximeter and thermometer to check your blood oxygen levels and temperature every day at home
- Blood tests to see if you develop an immune response
- \$40 compensation per study visit
